

Listing ID: 620

Company Name: Simba Spice

Description: Here at Simba Spice, we have a colourful heritage, which is apparent in the food we serve and the company name!

'Simba' : From the African language of Swahili word for Lion

'Spice' : An aromatic or pungent substance used to flavour food

'BBQ' : A meal or gathering at which meat, fish, poultry or other food is cooked out of doors on a rack over an open fire or on a special appliance.web

With our ancestors hailing from the Punjab region in Northern India in the time of the British Raj and then those ancestors immigrating to East Africa to countries like Kenya, Uganda and Tanzania, and then finally the third & fourth generation settles itself in England, and finds itself with recipe knowledge and BBQ methods that are quite simply enviable!

With family recipes and using traditional methods of preparation, we take care in cooking food that would make our ancestors proud!

Without too many words, as we believe the proof is in our food, not in what
